Subject: Draft Data Sources.docx
[Draft Data Sources.docx](#)

Jean,

I'm attaching a draft doc describing the data sources used in the Cooperating Agency Presentations. The descriptions are organized in the same sequence as the slides; I included the original slide numbers for reference. I've tried to provide a summary of the data content per subject matter at the beginning of each topic, followed by pertinent excerpts from the metadata where available. This has made for a somewhat lengthy doc, but is hopefully something you can work with as a reference.

-Amy
